

## Proctored UA ALEKS Test

First semester students who need Math 105 or Phil 110 to satisfy the Math requirement for their major can take a proctored ALEKS test. A score of 60% or higher will satisfy the G-strand, or Math 105 requirement. Generally, the Prep for College Algebra test is used, but students can also take the Prep for Calculus ALEKS test.

- This test is only administered through the UA Testing Office. It must be taken in the Old Main Building, Room 223 proctored lab.
- This opportunity is only available during the student's first semester at UA.
- Students have 2 chances to take the proctored test to satisfy the G-strand math requirement.
- The test is not timed, but students should plan on testing for up to two hours or longer.
- A calculator is provided in the ALEKS system. Students cannot use their own calculator on this test.

Fees: \$65 per test divided into two separate fees

**\$45 proctoring fee** that will be put on your UA Bursars account by the Testing Office.

**\$20 test fee** that will be put on your UA Bursars account by the Math Department.

### Registration:

Walk-in testing begins on Tuesday, September 1, 2009. No appointment is necessary.

Tuesdays and Thursdays: 1:00pm-5:00pm

Saturdays: 9:00am-1:00pm

Please consult <http://www.testing.arizona.edu/tests/aleks.php> to verify testing days.

Remember - the test is not timed, but students should plan on testing for up to two hours or longer. Students who are not able to finish the test in the allotted time can resume testing on another day. However, a second proctoring fee will be charged (\$45) for the second testing day. The test must be completed within one week of testing. *The student will be charged, even if the test is not completed.*

**ID Requirement:** Government-issued photo id or UA Catcard.
